SUBJECT INDEX

A

Abstracts of the Proceedings of the Urological Society of Australia, 91
Adenocarcinoma, occurring within a caecocystoplasty, 357
Adenomatous metaplasia (nephrogenic adenoma), urothelium, analysis of 70 cases, 427
Allopurinol treatment of renal calcium stone disease, 375
Antibiotic course, perioperative, short, after transurethral prostatic resection, with or without, long-term follow-up, 444
  prophylaxis, British urological practice, survey, 478
Antigens, T and ABH blood group, immuno-histological detection in upper urinary tract tumours, 386
Atropine, bladder electromyograms and function after, monkeys, 341
  blockade, nerve-mediated stimulation of human detrusor, 418
AUTHORS' FOLLOW-UP
  BAILEY, M. J. and SHEARER, R. J. The role of internal urethrotomy in the prevention of urethral stricture following transurethral resection of prostate, 81
  CONSTABLE, A. R., HUSSEIN, M. M., ALBRECHT, M. P., THOMPSON, F. D, PHILALITHIS, P. E. and JOEKES, A. M. Single sample estimates of renal clearances, 483
  TURNER-WARWICK, R. T., WHITESIDE, C. G., MILROY, E. J. G., PENGELLY, A. W. and THOMPSON, D. T. The intravenous urodynamorgram, 352
  WHITFIELD, H. N., BRITTON, K. E., HENDRY, W. F. and WICKHAM, J. E. A. Frusemide intravenous urography in the diagnosis of pelviureteric junction obstruction, 351

B

Bilharzial bladder cancinoma, cystectomy for, 126 patients 10 years later, 303
  ureteric strictures, use of ureteric nipple in surgical management, 137
Bladder cancer, cisplatin, first-line intravenous, for deeply invasive: Update on 70 cases, 690
    DNA/RNA Ratio: a factor indicating the recurrence rate?, 668
    granular cell myoblastoma, 109
    Intravesical thiotepa, the effect of on the recurrence rate, 680
    lymphoma, primary malignant, 238
    invasive, treated by radical external radiotherapy, 40
      the role of endoscopic treatment after radical radiotherapy, 694
    malignant fibrous histiocytoma, 106, 237
    mitomycin C in: 24-month follow-up, 686
    oncogenes, 664
    superficial, intravesical mitomycin C therapy, 37
      invasive potential, 32
      transitional cell carcinoma, monoclonal antibodies to detect A, B and H blood group isoantigens, means of predicting invasive recurrences, 148
    T3, chemotherapy before radiotherapy, pilot study, 434
    see also Bladder tumours
    total cystectomy for, ileocaeco-urethroplasty after, 160
    urethral dysplasia, in cystectomy specimens, 535
  carcinoma, bilharzial, cystectomy for, 126 patients 10 years later, 303
  carcinoma, post-diversionary, 487
  dysfunction, neurogenic, minor defects of sacrum, 154
  foreign body in, unusual complication 106
  neck contracture, following prostatectomy, 308
    incision, endoscopic, ejaculation and sexual function after, 164
      transurethral resection of prostate, review of 700 cases, 168
      obstruction, functional, results of endoscopic bladder neck incision in 131 consecutive patients, 60
  neuropathic, hyper-reflexic, vasoactive intestinal polypeptide in, 289
    treatment by enterocystoplasty and selective sphincterotomy or sphincter ablation and replacement, 27
  outflow obstruction, a double-blind controlled trial of a new α-1 blocking drug in the treatment of bladder outflow obstruction, 657
  primary melanoma, presenting with intracerebral metastases, 593
  reconstruction, after cystectomy for cancer, use of ileal reservoir, 245
  trabeculated urinary, human obstructed, morphological and morphometric studies, 525
  transitional cell carcinoma, with pelvic nodal disease, pelvic lymphadenectomy and radical cystectomy for, 156
  tumours, problem of extravasation of irrigating medium following transurethral resection, 485
    Retinoic Acid Receptor (RAR), status, the influence of on the course of the disease, 676
    superficial, efficacy of oral methotrexate in prevention of recurrence, evaluation, 306
      exfoliate cytology after transurethral resection, 530
      see also Bladder cancer

SINCLAIR, G. R., and EVANS, C. M. and KENCH, P. Vascular lesion of the verumontanum, 111
WILLIAMS, R. J. L., FREEMAN, A. and BRENDLER, C. B. Acute renal failure secondary to fishing line, 590
WONG, A. L., MORRAN, C. G., MCGEORGE, A. and ABEL, B. J. Accidental urethrocutaneous fistula, 239
WORRELL, J. A pararenal pseudocyst of unusual aetiology, 239
Catheter, simple loop, for ureteric calculus retrieval, 402
ureteric, metal stylet, use for ureteric meatotomy, 488
ureteroscopic placement for obstructing calculus, 113
urinary, entangled, prevention of a "knotty" problem, 594
latex, cytotoxicity, 82

rat peritoneal implantation test, new method for tissue toxicity testing, 329
toxicity testing, 579
Chemotherapy before radiotherapy, for T3 bladder cancer, pilot study, 434
Chlamydia trachomatis, clinical presentation in a urological practice, 218
Circumcision, with diathermy, successful reconstruction following, 587
Cis-platin-based combination chemotherapy, influence on hormone and sperm cell production, in testicular cancer, 210
in urinary tract carcinoma treatment, 299
"Clam" ileocystoplasty for the treatment of refractory, urge incontinence, 641
Colic, renal, management, valid reasons for using anti-muscarinic drugs, 498
Colonic diversion, histochemical changes after ureterosigmoidostomies, and 700
Computer program for urology, 257
Corpora cavernosa, fibrous skeleton, probable function in mechanism of erection, 574
Cryptorchidism, unilateral, scrotal testis in, 187
Cystadenoma, papillary, of epididymis, 356
Cystitis emphysematosa, 585

D

Detrusor instability, obstructed pig, experimental model, 292
muscle strips, isolated human, inhibition of spontaneous contractile activity by vasoactive intestinal polypeptide, 20
Diabetes, nephrogenic, and obstructive uropathy, 110
Distalgesic abuse and retroperitoneal fibrosis, 486
DNA content, human semen, objective measurement of sperm density, 230
DNA/RNA ratio in bladder cancer: a factor indicating the recurrence rate?, 668
Double J stenting, the effects on unobstructed ureters, 630
Double pigtail stents, retrograde insertion of: a more reliable technique, 793

E

Ejaculation, retrograde, post-operative, surgical correction, 458
Electromyograms, bladder, function in monkeys after atropine, 341
Enuretics, primary adult, neurophysiological measurements in, 635
Epididymis, papillary cystadenoma, 356
Epididymitis, acute suppurative, in intra-abdominal testis, 244
intravenous urography as routine investigation, 338

F

Fertilistion therapy, *in vitro*, in cases of male infertility, repeated pregnancies following, 484
Fertility, post-treatment, in patients with testicular cancer. I. Influence of retroperitoneal lymph node dissection on ejaculatory potency, 204. II. Influence of cis-platin-based combination chemotherapy and retroperitoneal surgery on hormone and sperm cell production, 210
Fistula, accidental urethrocutaneous, 239
urethral, closure by rhombic flap, 112
due to urethral strictures, direct vision internal urethrotomy in treatment, 462
vesico-uterine, 438
Flutamide therapy for advanced prostatic cancer, phase II study, 172
Fournier's gangrene, polyarteritis nodosa as unrecognised cause, 335
Frusemide intravenous urography, in diagnosis of pelviureteric junction obstruction, 351

G

Genital, male, injuries from external trauma, 467
Germ cell tumour, male, abdominal pain as presenting symptom, 197
metastatic, value of fine needle aspiration cytology in management, 200
Glans penis, in Buschke-Lowenstein tumour, reconstruction, new technique, 596

H

Hermaphroditism, true. A review of 41 cases with observations on testicular histology and function, 775
Heterologous oocyte penetration (HOP) test, clinical evaluation, 233
Histiocytoma, malignant fibrous, bladder, 106, 237
Huntington's chorea, vesico-urethral function, 63
Hydrocele of testis, treatment with aspiration and injection of tetracycline, 192
Hydronephrosis, familial pelviureteric junction, association with duplex pelvicaliceal system and vesicoureteric reflux, family study, 365
idiopathic, comparison of diuresis renography, Whitaker test and renal pelvic morphology, 119
predictive value of pressure flow studies for functional outcome of reconstructive surgery, 6
Hydroureteronephrosis, bilateral severe, due to uterine prolapse, 360
Hypercalciuria, idiopathic relationship of stone growth and urinary biochemistry in long-term follow-up of stone patients, 613
with and without, comparison of urinary oxalate excretion in urolithiasis patients, 505
Hyponatraemia, following transurethral resection of prostate, 450
Hypospadias, classification of enlarged prostatic utricle, 334
congenital meatal stenosis, giant anterior urethral calculus associated with, 107

I

Ileal conduit, role in development of upper tract dilatation, 520
Incontinence, refractory urge – "Clam" ileocystoplasty for the treatment of, 641
stress, male, control by implantable prostheses, 175
teflon injection, 24
Infection, urinary, adult men, laboratory perspective, 222
wound, prevention following vasectomy, 227
Infertility, male, repeated pregnancies following *in vitro* fertilisation therapy, 484
Intravenous urodynamogram, 352
routine investigation in epididymitis, 338

K

Kidney grafts, human autologous, function after extracorporeal preservation with Sacks' II solution, 380

L

Laparoscopy and ultrasonography, in localising impalpable undescended testis, comparison, 185
Lymphocyte sub-populations in the male genital tract, 769

M

Methotrexate, oral, evaluation of efficacy in prevention of recurrence of superficial bladder tumours, 306
in urinary tract carcinoma treatment, 299
Mezlocillin, prophylactic, for transurethral prostatectomy, 46
Minocycline, in chronic abacterial prostatitis, double-blind prospective trial, 43
Microcomputer improved presentation of data in a urodynamics clinic by use of a, 660
Mitomycin C in superficial bladder cancer: 24-month follow-up, 686
therapy, intravesical, for superficial bladder cancer, 37
Monoclonal antibodies, to detect A, B and H blood group isoantigens in superficial transitional cell carcinoma of the bladder, means of predicting invasive recurrences, 148
Müllerian duct syndrome, persistent, review and report of 3 cases, 548
Myelomeningocele, sphincter, behaviour in, 647
Myoblastoma, granular cell, bladder, 109

N

Nephrectomy, renal arteriovenous fistula following, 592
Neprolithotomy, percutaneous, 603
Nephrolithotripsy, coagulum percutaneous: a new approach, 605
Neurophysiological measurements in primary adult enuretics, 635

O

Obstruction, bladder neck, functional, results of endoscopic bladder neck incision in 131 consecutive patients, 60
congenital pelviureteric junction, technical modifications of Anderson Hynes pyeloplasty, 114
pelviureteric junction, frusemide intravenous urography in diagnosis, 351
ureteric, post-transplant, percutaneous pyelolysis, new approach, 354
secondary to appendicular abscess treated by transureteroureterostomy, 353
Obstructive uropathy, children ^{99m}Tc-DTPA renography studies under conditions of maximal diuresis, 124
nephrogenic diabetes insipidus, 110
Oncogenes and bladder cancer, 664
Ovarian cyst, large, urodynamic changes following removal 242
Oxalate, calcium, kidney stones, use of discriminant index in dynamic treatment to reduce recurrence, 500
urinary, excretion, comparison in urolithiasis patients with and without hypercalciuria, 505

P

Paediatric urology, changing workload, 251
Parkinson's disease, micturition disturbance in, 652
Penis amputation, useful appliance to assist micturition, 362
carcinoma, first decade of life, 358
of skin, 465
fibrosarcoma, recurrence 7 years after local excision, 588
Peritoneal implantation test, rat, new method for tissue toxicity testing of urinary catheters, 329
Peyronie's disease, surgery for, 746
Phaeochromocytoma, malignant, 394
POINTS OF TECHNIQUE
ALCINI, E., PESCATORI, M., D'ADDESSI, A., DESTITO, A. and CASTIGLIONI, G. C. Bladder reconstruction after cystectomy for cancer: use of the ileal reservoir, 245
BAGLEY, D. H., HUFFMAN, J. L. and LYON, E. S. Ureteroscopic placement of ureteric catheter for obstructing calculus, 113
COSTA, H., SANTOS, P., SOARES, R. and AMARANTE, J. A new technique to reconstruct the glans penis in a patient with a Buschke-Lowenstein tumour, 596
MCLEAN, P. A., GAWLEY, W. F. and GOREY, T. P. Technical modifications of Anderson Hynes pyeloplasty for congenital pelviureteric junction obstruction, 114
SCHMELLER, N. T. and OVERBECK, H. Steerable guide-wire for insertion of ureteric stent into tortuous ureter, 595
SINGH, A. K. and CHANDRA, R. Closure of urethral fistula by rhombic flap, 112
THORNHILL, J. A. Entangled urinary catheters, prevention of a "knotty" problem, 594
YAXLEY, R. P. Use of the metal stylet of ureteric catheter for ureteric meatotomy, 488
Polyarteritis nodosa, unrecognised cause of Fournier's gangrene, 355
Prostaglandin synthetase inhibition, renal pelvic smooth muscle, rabbit, 390
Prostate biopsy, with 21 gauge surecut needle, 56
cancer, advanced, flutamide therapy, phase II study, 172
localised, prediction of response to radiotherapy, 729
carcinoid tumour, associated with inappropriate ACTH secretion, 591
carcinoma, biochemical markers and skeletal metabolism, 711
bone imaging and serum phosphatases in, 317
cord compression: is laminectomy justified?, 733
generalised increase in bone resorption, 721
is delayed treatment justified?, 724
presenting with massive pleural effusion and elevated pleural acid phosphatase, 586
prognostic significance of alkaline and acid phosphatase and skeletal scintigraphy, 715
treated with diethyl-stilboestrol and estramustine, plasma hormone levels, 542
histology, serial, valid marker of response to hormone treatment, 453
resection, transurethral, with or without short perioperative antibiotic course, long-term follow-up, 444
specific antigen, immunocytochemical localisation, 50
transurethral incision of (TUIP): 646 cases in 15 years – a chronological appraisal, 703
resection, and bladder neck incision, review of 700 cases, 168
blood loss measurement during, 311
hyponatraemia following, 450
role of internal urethrotomy in prevention of urethral stricture following, 81
ultrasonography, useful technique, 440
utricle, enlarged, classification in hypospadias, 334
urethral region, adult, embryonal rhabdomyosarcoma of, 241
Prostatectomy, bladder neck contracture following, 308
transurethral, prophylactic mezlocillin, 46
Prostatitis, chronic abacterial, minocycline in, double-blind prospective trial, 43
Pseudocyst, pararenal, unusual aetiology, 239
Pyeloplasty, Anderson Hynes, for congenital pelviureteric junction obstruction, technical modifications, 114

R

Radiotherapy after chemotherapy, for T3 bladder cancer, pilot study, 434
radical external, for treatment of invasive bladder cancer, 40
Reflux, primary vesicoureteric, unilateral ureteric reimplantation for, children, policy re-evaluated, 406
duplex pelvicaliceal system, and familial pelviureteric junction hydronephrosis, family study, 365

Renal calcium stone disease, allopurinol treatment, 375
clearances, single sample estimates, 483
colic, management, valid reasons for using anti-muscarinic drugs, 498
cortical necrosis, unilateral, 243
failure, acute, secondary to fishing line, 590
function, rapid ward assessment by reflectance photometric determination of plasma creatinine, 510
functional recovery, and diuresis, in chronic retention, 1
oncocytomas, the importance of recognising, 625
pelvic smooth muscle, prostaglandin synthetase inhibition, rabbit, 390
stones in children in Pakistan, 618
patients, paraplegic, biochemical studies. 1. Plasma biochemistry and urinary calcium and saturation, 269. 2. Urinary excretion of citrate, inorganic pyrophosphate, silicate and urate, 275
recurrent, family history, 370
Renography, diuresis, comparison with Whitaker test and renal pelvic morphology, in idiopathic hydronephrosis, 119
^{99m}Tc-DTPA, under condtions of maximal diuresis, evaluation of obstructive uropathy, children, 124
Retention, urinary chronic, diuresis and renal functional recovery, 1
female, 78
physiological approach to investigation, 141
persisting, abnormal electromyographic activity in striated muscle of urethral sphincter, 67
Retinoic acid receptor (RAR), status of bladder tumours on the course of the disease, the influence of, 676
Rhabdomyosarcoma, embryonal, of prostatic-urethral region in an adult, 241

S

Sacral evoked response (urologist's knee jerk), patterns and significance, 145
Scanning electron microscopy, low temperature and conventional, human urothelium, 10
Scintigraphy, thallium-technetium subtraction, as an aid to parathyroid surgery, 133
Scrotum, ultrasound examination, 346
Seminomas, serum and tissue markers in, 750
Sperm cell production, influence of retro-peritoneal surgery, in testicular cancer, 210
density, objective measurement, DNA content of human semen, 230
round headed, 486
Sphincter ablation and replacement, neuropathic bladder treatment, 27
striated urethral and anal, children, comparative study of various electrodes in electromyography, 557
urethral, abnormal electromyographic activity of striated muscle, persisting urinary retention, 67
function, the fluid bridge test applied to, 737
Stone disease, epidemiology, 491
Stone growth, relationship of – and urinary biochemistry in long-term follow-up of stone patients with idiopathic hypercalciuria, 613
Strictures, bilharzial ureteric, use of ureteric nipple in surgical management, 137
urethral, causing urethral fistulas, direct vision internal urethrotomy in treatment, 462
following transurethral resection of prostate, role of internal urethrotomy in prevention, 81

T

Teflon injection, in stress incontinence, 24
Teratoma, testicular, the accuracy of CT scanning prior to para-aortic lymphadenectomy in patients with bulky metastases from, 755
Testis, ascent, fact or fiction, 474
cancer, clinical stage I. non-seminomatous germinal, surveillance or lymph node dissection in, 759
post-treatment fertility. I. Influence of retroperitoneal lymph node dissection on ejaculatory potency, 204. II. Influence of Cis-platin-based combination chemotherapy and retroperitoneal surgery on hormone and sperm cell production, 210
early stage non-seminomatous germ cell management, Edinburgh 1970–1981, 560
familial torsion, 190
hydrocele, treatment with aspiration and injection of tetracycline, 192
intra-abdominal, and acute suppurative epididymitis, 244
scrotal, in unilateral cryptorchidism, 187
tumours, advanced germ-cell, cisplatin combination chemotherapy, 567
clinical stage II non-seminomatous germ cell, results of management by primary chemotherapy, 763
haemoglobin F levels, 471
undescended, in adult life, 181
impalpable, comparison between ultrasonography and laparascopy in localising, 185
Tetracycline, for treatment of hydrocele of testis, 192
Thallium-technetium subtraction scintigraphy, as an aid to parathyroid surgery, 133
Thiotepa, intravesical, the effect on the recurrence rate of newly diagnosed superficial bladder cancer, 680
Tortuous ureter, steerable guide-wire for insertion of ureteric stent, 595
Transperitoneal renal surgery, management of posterior peritoneum after, 279
Transverse colon conduit, urinary tract diversion, long-term follow-up, further experience with and modifications, 284
Trimethoprim, effect on serum creatinine, 265
Tumours, *see* Bladder cancer, Bladder tumours, and other specific names
TURP without TURP syndrome, 708

U

Ultrasound assessment of residual urine, quantitative method, 410
examination, scrotum, 346
laparoscopy, in localising impalpable undescended testis, comparison, 185
in place of X-ray fluoroscopy in urodynamics, potential use, 88
Ureter, circumcaval, (type I), selection of operative procedure, rational approach, 399
Ureteric catheter, ureteroscopic placement for obstructing calculus, 113
malignant lymphoma, 587
nipple, use in surgical management of bilharzial ureteric strictures, 137
obstruction, *see* Obstruction, ureteric
reimplantation, unilateral, for primary vesicoureteric reflux, children, policy re-evaluated, 406
strictures, bilharzial, use of ureteric nipple in surgical management, 137
Ureteroscopy, alternative view, 281
Ureterosigmoidostomies, histochemical changes after colonic diversion and, 700

Ureters, unobstructed, the effects of double J stenting, 630
Urethral calculus, giant, nine-year-old girl, 108
giant anterior, associated with hypospadias and congenital meatal stenosis, 107
dysplasia and bladder cancer, in cystectomy specimens, 535
fistula, closure by rhombic flap, 112
sphincter, abnormal electromyographic activity of striated muscle, persisting urinary retention, 67
function, the fluid bridge test applied to, 737
stricture, following transurethral resection of prostate, role of internal urethrotomy in prevention, 81
syndrome (abacterial cystitis), search for a pathogen, 552
valves, congenital posterior, management, 71
Urethritis, catheter-induced, latex and silicone catheters compared, 325
Urethroplasty, two-stage, long-term results of, 742
Urethrotomy, internal, direct vision, in treatment of urethral fistulas due to urethral strictures, 462
role in prevention of urethral stricture following transurethral resection of prostate, 81
Urinary biochemistry, relationship of stone growth and – in long-term follow-up of stone patients with idiopathic hypercalciuria, 613
Urinary catheters, *see* Catheters
incontinence, stress, genuine, perineal nerve damage in, electrophysiological study, 422
Urine, residual, ultrasound assessment, quantitative method, 410
oxalate excretion, comparison in urolithiasis patients with and without hypercalciuria, 505
retention, *see* Retention, urinary
infection, adult men, laboratory perspective, 222
tract carcinoma, cis-platin and methotrexate in treatment, 299
diversion, long-term follow-up, further experience with and modifications of transverse colon conduit, 284
pressure changes in the dilated upper urinary tract on perfusion at varying flow rates, 622
upper, assessment of dilatation, comparison of dynamic computed tomography, diuresis renography and DTPA parenchymal transit time, 515
tumours, immuno-histological detection of T antigen and ABH blood group antigens, 386
Urodynamics clinic, improved presentation of data by use of a microcomputer, 660
potential use of ultrasound in place of X-ray fluoroscopy, 88
Urography, frusemide intravenous, in diagnosis of pelviureteric junction obstruction, 351
Urological practice, British, survey of antibiotic prophylaxis, 478
clinical presentation of *Chlamydia trachomatis*, 218
Uropathy, obstructive *see* Obstructive uropathy
Urothelium, human, low temperature and conventional scanning electron microscopy, 10

V

Valves, urethral, congenital posterior, management, 71
Varicocele and puberty, critical factor, 194
Vasectomy, prevention of wound infection, 227
why does reversal fail?, 780
Vasoactive intestinal polypeptide, in hyper-reflexic neuropathic bladder, 289
in inhibition of spontaneous contractile activity in isolated human detrusor muscle strips, 20
Vasography, indications and complications, 215
Verumontanum, vascular lesion, 111
Voiding, low pressure/low flow, younger men, psychological aspects, 414

X

Xanthogranulomatous pyelonephritis, in childhood, 261
